Medical Officer & Adjutant Note: This 12-page dossier contains all official clinical records, consultant notes, procedure sheets, military discharge orders (PAFM-1348), and reconciled financial receipts (ProMed Bill #0104 / Kuickpay ID 029070914510 for PKR 270,000) verifying inpatient stay from 02-10-2026 to 04-10-2026 at Army Cardiac Hospital Lahore Cantt under PA-43813-F dependent entitlement.

APPLICATION FOR MEDICAL REIMBURSEMENT / FINANCIAL GRANT

DIRECTORATE GENERAL WELFARE & REHABILITATION (W&R DTE), AG'S BRANCH, GHQ RAWALPINDI

FORMAL CLAIM

To:
The Director General,
Welfare & Rehabilitation Directorate (W&R Dte),
Adjutant General's Branch (AG's Branch),
General Headquarters (GHQ), Rawalpindi.

Subject: APPLICATION FOR REIMBURSEMENT / FINANCIAL GRANT OF MEDICAL EXPENDITURES INCURRED ON CARDIAC INTERVENTION (LMS BIFURCATION ANGIOPLASTY & STENTING) — AMOUNT CLAIMED: PKR 270,000/-

Respected Sir,

1. It is respectfully submitted that I, **Mian Muhammad Farooq** (CNIC: **35202-2498549-9**), am the dependent father of **Major Adnan Farooq** (PA-43813-F Arty, presently serving under CMH Rawalpindi / Parent Unit). I am an authorized dependent holding official Armed Forces Dependent Identity Card valid under PA-43813-F.

2. I was admitted as an inpatient to the **Army Cardiac Hospital (ACH), Lahore Cantt** on **02 October 2026** under Admission Slip PAFM-1350 (CCU 1) under the care of **Brig. Professor Dr. Asif Nadeem, TI(M)**, HoD Cardiology.

3. Coronary Angiography (Cath Report No: A 2014) revealed critical Double Vessel CAD involving a high-risk **Medina 1,1,1 True Bifurcation of the Left Main Stem (LMS) into LAD and LCX**. On **02 October 2026**, a successful Left Main bifurcation PCI was performed using the specialized **Double Kissing Culotte (DK Culotte)** stenting technique along with a **Drug-Eluting Balloon (DEB) to the OM branch**.

4. Following CCU monitoring and bedside echocardiography confirming preserved LV systolic function, I was officially and routinely discharged on **04 October 2026** under official Restricted Hospital Discharge Slip **PAFM-1348**.

5. In accordance with Army Welfare & Rehabilitation Directorate rules and entitlement for parents of serving officers, it is requested that medical reimbursement / financial grant of the verified interventional expenditure amounting to **PKR 270,000/- (Rupees Two Lac Seventy Thousand Only)** incurred on purchasing 3x BioFreedom Ultra Drug-Eluting Stents (Tax Invoice # 0104 certified by Brig. Ghulam Rasool Maken, Kuickpay ID: 029070914510, MR # 2026103737845) may kindly be sanctioned and transferred directly to my bank account.

Itemized Claim & Hardware Financial Breakdown

Item / Description	Hardware Dimensions	Distributor / Invoice Ref	Amount (PKR)
BioFreedom Ultra Drug-Eluting Stent (DES)	3.0 x 24 mm	ProMed Intl (NTN: G076632) / Inv #0104	90,000/-
BioFreedom Ultra Drug-Eluting Stent (DES)	3.5 x 29 mm	ProMed Intl (NTN: G076632) / Inv #0104	90,000/-
BioFreedom Ultra Drug-Eluting Stent (DES)	3.5 x 33 mm	ProMed Intl (NTN: G076632) / Inv #0104	90,000/-
TOTAL REIMBURSABLE EXPENDITURE CLAIMED (CASH PAID VIA AG'S BRANCH GATEWAY):			**PKR 270,000/-**

6. My complete home address and verified banking particulars for direct electronic credit are as follows:

Patient Full Name:	**Mian Muhammad Farooq**
CNIC Number:	**35202-2498549-9**
Contact Mobile Nos:	**0332-2227426 | 0308-7878785**
Complete Home Address:	House # 12, Street # 4, Cavalry Ground / Cantt, Lahore
Name of Bank:	Askari Bank Limited / HBL
Branch Name & Code:	Cantt Branch, Lahore
Account Title:	Mian Muhammad Farooq
24-Digit IBAN:	**PK**

7. Complete attested copies of PAFM-1348 Discharge Slip, PAFM-1316 Operative Sheet, Angiography & DK Culotte Reports, Dependent Card, and Original Hospital Receipts (ProMed Bill #0104 / Kuickpay Slip) are attached herewith.

CLINICAL CASE & PROCEDURE SCRUTINY SUMMARY

ARMY CARDIAC HOSPITAL LAHORE CANTT • CLINICAL DIRECTORATE REVIEW

MEDICAL BOARD COPY

1. Patient Clinical Profile & Presentation

Patient Name:	**Mian Muhammad Farooq**	Age / Sex:	73 Years / Male
Pre-Procedure Echo:	**LVEF 60%** (Preserved Global LV Function)	Comorbidities:	Hypertension (HTN), Post-Prostatectomy
Angiographic Anatomy:	**Double Vessel CAD (DVCAD)** with true **Medina 1,1,1 Left Main Stem / LAD / LCX bifurcation** stenosis (80-85% ostial & proximal narrowing), non-dominant/normal RCA.		

2. Intra-Procedural & Operative Findings (Date: 02-10-2026)

Operative Sheet Notation (PAFM-1316):
"Successful PCI to LMS to LAD & LCX. DEB to OM. Tolerated procedure well. Shift to CCU 1."
Technique: Complex bifurcation stenting executed via **Double Kissing Culotte (DK Culotte)** technique ensuring full ostial coverage of both LAD and LCX without carina shift, plus Drug-Eluting Balloon (DEB) dilation of the OM branch.

3. Post-Procedural CCU Course & Hemodynamics

Timeline	Clinical Parameter	Observation / Finding	Action Taken & Result
02-10-26 (18:15)	Chest Check & ECG	BP 90/60, Pulse 77. Fresh ECG: **No acute ST-T change**.	Inj Morphine 3mg IV administered. Chest settled completely.
02-10-26 (20:45)	Bedside 2D Echo	**Good LV Systolic Function** preserved; trace 5mm pericardial rim.	Stable non-tamponade post-PCI rim; conservative monitoring.
03-10-26 (Morning)	Consultant Round	Renal check: **Serum Creatinine 1.1 mg/dL** (completely normal).	Brig Prof Dr. Asif Nadeem reviewed; added Sustac 2.6mg BD.
04-10-26 (Morning)	Discharge Review	BP 130/70, Cr 1.4 mg/dL. Denied active cardiac symptoms. Mobilized.	Dr. Sikandar Saleem (SR) declared patient stable for discharge.
04-10-26 (21:50)	Discharge Order	Brig Asif authorized routine hospital discharge.	**PAFM-1348 Discharge Slip issued with Routine status.**

4. Verified Discharge Medication Regimen (Home Care)

Drug Name	Active Molecule / Class	Dosage	Therapeutic Mandate
Tb. Anplag	Ticagrelor (Antiplatelet)	90 mg BD	**Mandatory stent anti-thrombotic therapy.** Never discontinue.
Tb. Loprin	Aspirin (Antiplatelet)	75 mg OD	Dual antiplatelet therapy (DAPT) partner with Ticagrelor.
Tb. Sustac	Glyceryl Trinitrate SR	2.6 mg BD	Sustained-release coronary vasodilator supporting bifurcation micro-flow.
Tb. Rovista	Rosuvastatin (Statin)	40 mg OD	High-intensity plaque stabilization & LDL cholesterol reduction.
Tb. Zopent	Pantoprazole (PPI)	40 mg OD	Gastroprotection against gastric irritation from dual blood thinners.
Tb. Nuberol Forte	Paracetamol + Orphenadrine	1 tab SOS	Analgesic / muscle relaxant for radial arm / musculoskeletal relief.

Army Cardiac Hospital Abdul Rehman Road Lahore Cantt – Pakistan

Official Angiography Report # A 2014 signed by Brig Prof Dr. Asif Nadeem showing DVCAD & Medina 1,1,1 Bifurcation

Coronary Angiogram Lesion Inventory

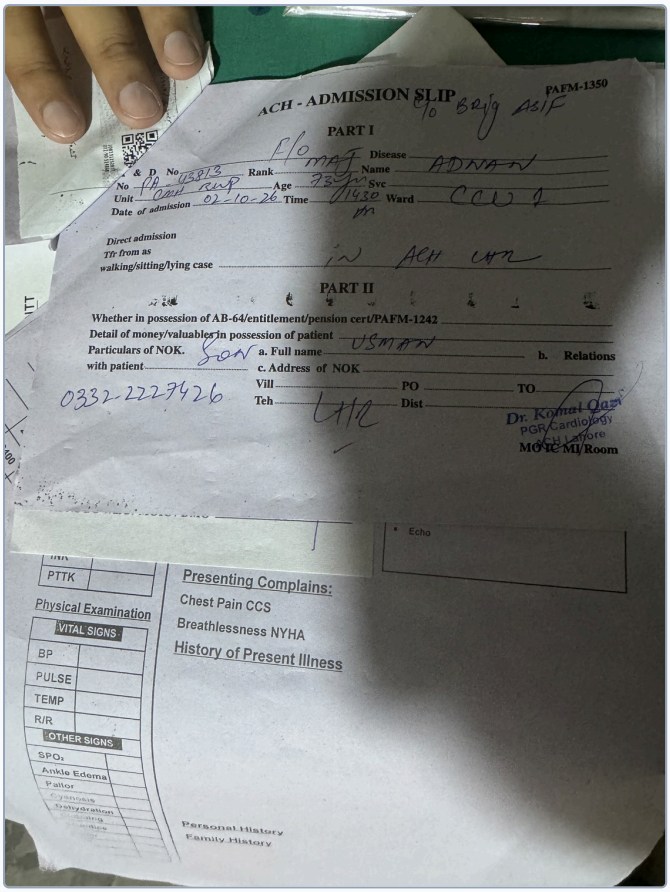
Cath Report No:	**Cath No: A 2014**	Procedure Date:	**01-10-2026 (Ser No: 3378)**
Left Main (LMCA):	Ostial/shaft normal; distal bifurcation involves origin of LAD and LCX.	LAD Artery:	Severe 80-85% proximal stenosis involving the major bifurcation carina.
Circumflex (LCX):	Severe ostial & proximal disease at bifurcation; OM branch diseased.	RCA (Right Coronary):	Non-dominant, normal smooth contours without flow limitation.
Medina Classification:	**Medina 1,1,1 True Bifurcation** of Left Main / LAD / LCX indicating dual-branch interventional stenting.		

ANNEXURE E: ADMISSION SLIP PAFM-1350 & DISCHARGE EVALUATION

ARMY CARDIAC HOSPITAL LAHORE CANTT • INPATIENT CLINICAL TRAIL

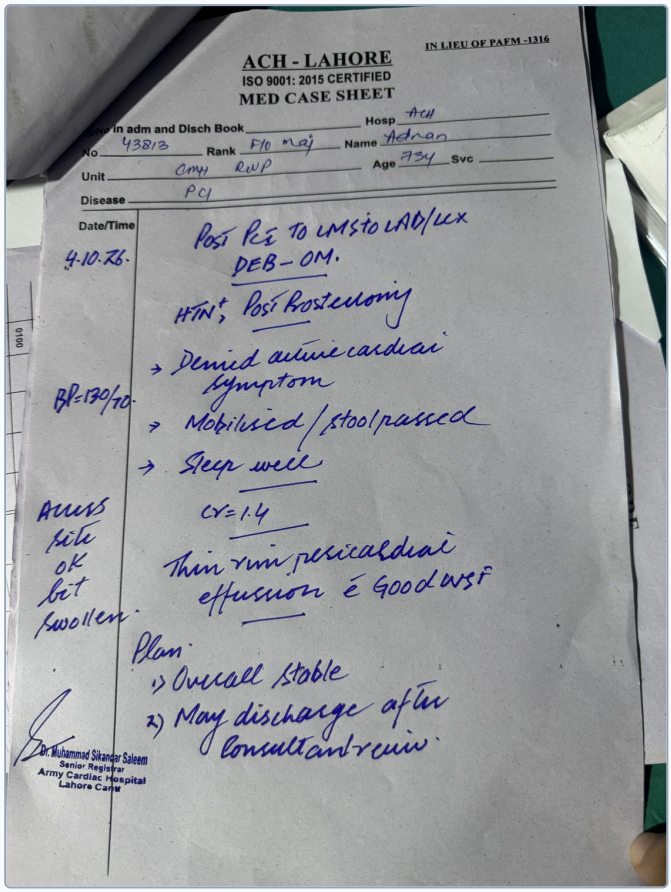
ADMISSION & READINESS

PAFM-1350 Admission Slip (02-10-26)



Admitted to CCU 1 • c/o Brig Asif • NOK Usman Farooq

Discharge Readiness Sheet (04-10-26)



Dr. Sikandar Saleem, SR: Stable, BP 130/70, Cr 1.4, Echo Good

Clinical Trail Confirmation

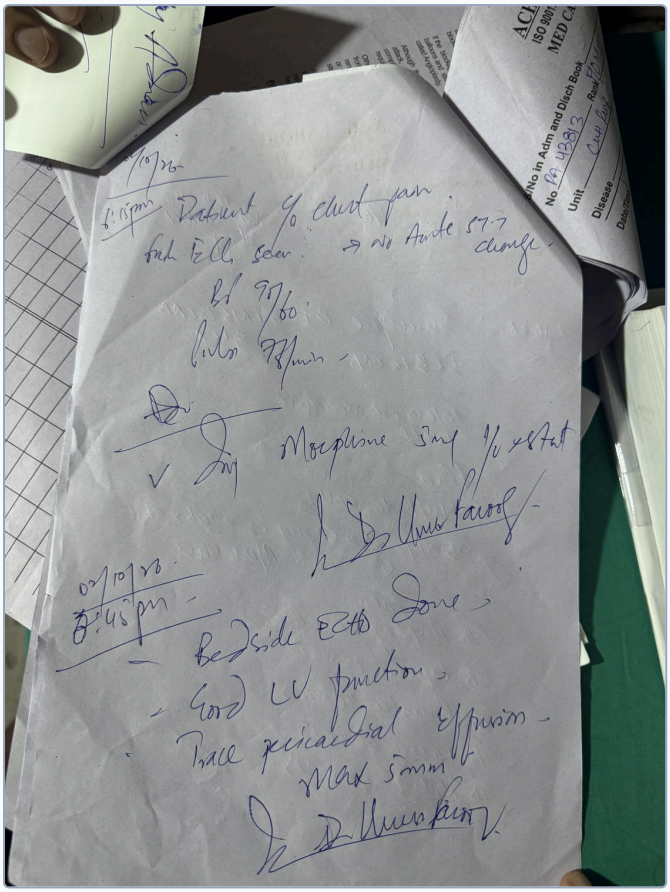
Inpatient Timeline: Mian Muhammad Farooq was admitted on 02-10-2026 at 14:30 hrs into CCU 1 and comprehensively monitored through 04-10-2026. Discharge readiness evaluation confirms stable hemodynamics, intact puncture site, and absence of angina prior to routine discharge.

ANNEXURE F: CCU BEDSIDE ECHO SHEET & DISCHARGE AUTHORIZATION

INTENSIVE MONITORING & FINAL DEPARTMENTAL AUTHORIZATION

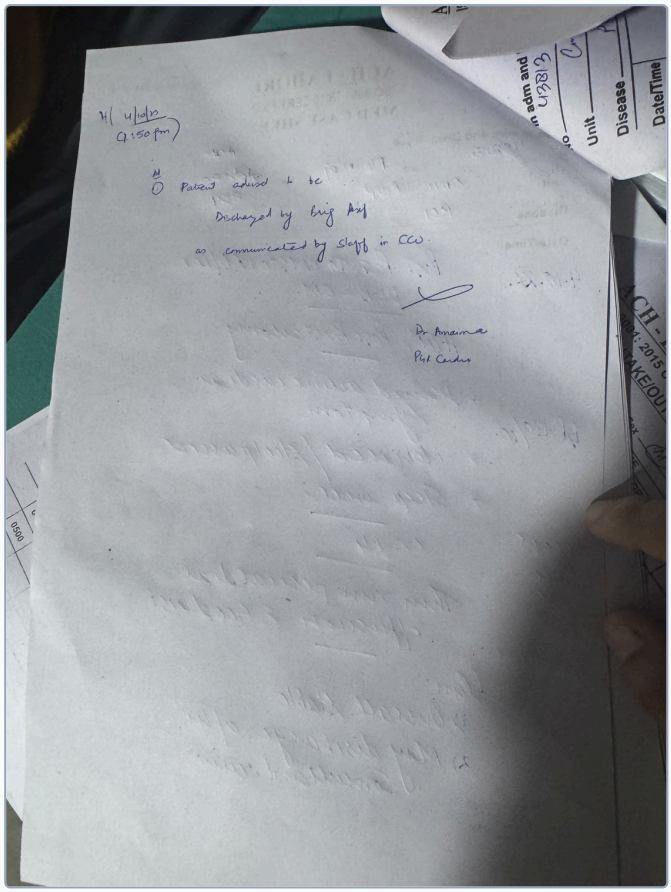
INTENSIVE CARE RECORDS

CCU Progress & 2D Echo (02-10-26)



Bedside Echo: Good LV Function, Trace 5mm Effusion, Normal ECG

Consultant Discharge Order (04-10-26)



Order: Discharged by Brig Asif as communicated by CCU staff

Echocardiographic & Clinical Authentication

Cardiac Contractility Verification: Post-interventional echocardiogram verified preserved left ventricular systolic pump function with good wall motion. Authorization for release from CCU and hospital was formally signed off by the cardiology on-duty registrar following Brig Asif Nadeem's clearance.
